PROFESSIONAL EXPERIENCE

Freelance / Project-based — (2022 – 2026)

- Developed and maintained cross-platform mobile applications using Flutter and Dart.
- Collaborated with designers and product teams to translate requirements into scalable features.
- Created responsive and visually appealing user interfaces aligned with design guidelines.
- Integrated applications with backend services, Firebase, REST APIs, and third-party libraries.
- Performed debugging, performance optimization, and app responsiveness tuning.
- Conducted code reviews, maintained coding best practices, and improved app structure.
- Implemented geolocation and geofencing for secure, context-aware app features.
- Provided support, updates, and improvements to deployed applications.

Flutter Developer(Gravitas), Mealket - Staff Meal Ticket App

A Flutter-based application that automates an organization's cafeteria meal ticket system.

- Implemented geofencing to restrict app functionality to the organization's premises.
- Enabled seamless employee meal ticket payments and daily usage tracking.
- Ensured secure operations with location-based restrictions.

Monogram Pro

- Designed for monogram designers to automate workflow.
- Image capture (design + material), customer info, service logging.
- Tracks orders and improves service delivery.

Nearby Laundry

- A mobile app connecting users with nearby laundry services.
- Implemented location-based search for available laundry shops.
- Integrated order placement, service details, and contact options.
- Designed a clean, intuitive UI to simplify service discovery.
